Contents

NUMBER 1 FEBRUARY 1986

Review article

1 Cardiovascular effects of adenosine
B. B. Fredholm and A. Sollevi

Original communications

23 *QT* and *QT*-peak interval measurements. A methodological study in patients with subarachnoid haemorrhage compared to a reference group
A. Rudehill, K. Sundqvist and C. Sylvén

39 Muscle adaptations and glucose control after physical training in insulin-dependent diabetes mellitus
K. Mandroukas, M. Krotkeiwski, G. Holm, G. Strömblad, G. Grimby, H. Lithell, Z. Wroblewski and P. Björntorp

53 Ramp-function work test suitable for automatic computation
P. J. Samuelsson, H. Gill, C. Lassvik, D. Linnarsson and O. Wigertz

63 Effect of changes in posture on circulatory homeostasis in patients with the nephrotic syndrome
A. B. Geers, H. A. Koomans and E. J. Dorhout Mees

77 Capillary filtration coefficient in the forearm of patients with essential hypertension
K. Roztočil, I. Přerovský and I. Oliva

Preliminary communication

85 Pulmonary clearance of inhaled ^{99m}Tc-DTPA: effect of surfactant depletion in rabbits
P. Wollmer, E. Evander, B. Jonson and B. Lachmann

91 **Abstracts from the 6th meeting of the Scandinavian Congress of Clinical Physiology**

109 **Correspondence**

111 **Instructions to authors**

Contents

NUMBER 2 APRIL 1986

Review article

115 Diastolic function of the hypertrophied left ventricle in primary hypertension
J. Wikstrand

Original communications

129 Effects of high doses of insulin on systemic haemodynamics and regional blood flows in dogs
O. Reikerås and P. Gunnes

139 Relationship between pulse amplitude and thermal exchange in the finger: the effect of smoking
J. L. Saumet, G. Leftheriotis, A. Dittmar and G. Delhomme

147 Intercrural differences of arterial blood-pressure and blood-flow in new-born infants
C. Lassvik and G. Wesström

153 Follow-up of circulatory changes secondary to deep venous thrombosis with special regards to radionuclide tests
C. M. Edenbrandt, J. Nilsson and P. Ohlin

163 Do substance P and vasoactive intestinal polypeptide (VIP) play a role in the acute occlusive or chronic ischaemic vasodilation in man
J. H. Henriksen, J. B. Bülow, O. Schaffalitzky de Muckadell and J. Fahrenkrug

171 Effect of hyperthyroidism on fibre-type composition, fibre area, glycogen content and enzyme activity in human skeletal muscle
F. Celsing, E. Blomstrand, J. Melichna, N. Terrados, N. Clausen, P.-E. Lins and E. Jansson

183 Beta-blockade and binding of digoxin to skeletal muscle
T. Joreteg and T. Jogestrand

191 Glucose uptake and binding of digoxin to skeletal muscle
T. Joreteg, S. Efendic and T. Jogestrand

197 Effect of β_1-selective and non-selective β blockade on work capacity and muscle metabolism
P. Kaiser, P. A. Tesch, M. Frisk-Holmberg, A. Juhlin-Dannfelt and L. Kaijser

NUMBER 3 JUNE 1986

Review article

209 Factors influencing G-tolerance
U. I. Balldin

Contents

Original communications

221 Repeatability of the single-breath method for estimation of pulmonary blood-flow: comparison among four data-reduction procedures
P. Christensen and J. Grønlund

235 Clinical evaluation of impedance cardiography
D. S. Goldstein, R. O. Cannon, R. Zimlichman and H. R. Keiser

253 Evaluation of a modified acetylene rebreathing method for the determination of cardiac output
J. Nyström, F. Celsing, P. Carlens, B. Ekblom and P. Ring

269 Left main or proximal left anterior descending coronary artery disease: detection by echocardiographic evaluation of interventricular septal function during exercise
K. Andersen, H. Vik-Mo and P. I. Hoff

281 Thermal dilution assessment of proximal aortic and left ventricular mixing chambers in dogs
J. Mickelson, D. Abendschein, C. J. Carlson and E. Rapaport

293 Fibre orientation in the left ventricle and its influence on local pressure–length loop analysis in cats
K. Matre, E. Hexeberg and J. Lekven

303 Venous plasma adrenaline response to orthostatic syncope during tilting in healthy man
P. Tatár, J. Bulas, R. Kvetňanský and V. Štrec

NUMBER 4 AUGUST 1986

Commentary

311 Insulin resistance, insulin deficiency and the pathogenesis of diabetes mellitus
E. Ferrannini

Original communications

319 Spectral analysis with digital presentation of C-W Doppler signals in the evaluation of carotid stenosis
G. Jungquist, H. Olivecrona, I. Kendrup, S. Bornmyr, B. Norrving, R. Takolander and S. E. Lindell

329 A laser Doppler technique for measuring distal blood-pressure: a comparison with conventional strain-gauge technique
S. Andersson, H. Linderholm, O. Rinnström and L. Burlin

337 Effect of local warming on forearm reactive hyperaemia
J. M. Johnson, D. S. O'Leary, W. F. Taylor and W. Kosiba

347 Repeatability of fibre type and enzyme activity measurements in human skeletal muscle
J.-A. Simoneau, G. Lortie, M. R. Boulay, M.-C. Thibault and C. Bouchard

357 Binding of digoxin to slow- and fast-twitch skeletal muscle fibres
T. Joreteg

365 Muscle ammonia and amino acid metabolism during dynamic exercise in man
A. Katz, S. Broberg, K. Sahlin and J. Wahren

381 The effect of physiological temperature changes on the galactose elimination capacity of the isolated perfused liver
K. Winkler, S. Keiding, K. Tønnesen and N. Tygstrup

389 Forearm composition and muscle function in trained and untrained limbs
R. J. Maughan, R. W. Abel, J. S. Watson and J. Weir

NUMBER 5 OCTOBER 1986

Hypothesis

397 Acute myocardial infarction: an episodic event of several coronary spasms followed by dilation?
P. Gasser and F. Dienstl

Original communications

405 Heat and water respiratory changes: comparison between mouth and nose breathing in humans
P. Varène, L. Ferrus, G. Manier and J. Gire

415 Effects of a thromboxane antagonist (BM 13·177) during endotoxin-induced pulmonary vasoconstriction in sheep
P. Hüttemeier, K. Eliasen, T. Mogensen, M. Bell, J. N. Sørensen and J. Qvist

423 Increased alveolar deadspace after closure of cardiac septal defects: pulmonary air embolism or failure of homeostasis?
R. Fletcher and P. Jögi

431 Metabolism of exercising skeletal muscle during $beta_1$- selective adrenoceptor blockade
O. J. Hartling, B. Schibye, K. Klausen, J. O. Lund and J. Trap-Jensen

439 Effect of adrenaline on exchange of glucose in leg tissues and splanchnic area. A comparison with the metabolic response to surgical stress
E. Håkanson, H. Rutberg and L. Jorfeldt

453 Effect of adrenaline on exchange of free fatty acids in leg tissues and splanchnic area. A comparison with the metabolic response to surgical stress
E. Håkanson, H. Rutberg and L. Jorfeldt

465 Activities of key enzymes in the energy metabolism of human myocardial and skeletal muscle
E. Jansson and C. Sylvén

473 **Announcement**

NUMBER 6 DECEMBER 1986

Editorial

475 Autonomic nerve function tests—need for standardization?
L. Kaijser

Original communications

481 Raynaud's phenomenon: blood supply to fingers during indirect cooling, evaluated by laser Doppler flowmetry
M. Engelhart and J. K. Kristensen

489 Effects of physical exercise on insulin absorption in insulin-dependent diabetics. A comparison between human and porcine insulin
E. Fernqvist, B. Linde, J. Östman and R. Gunnarson

499 Effect of muscular exercise on plasma C-peptide and insulin in obese non-diabetics and diabetics, Type II
M. Krotkiewski and J. Górski

507 Sensibility after burn injury
A. Hermanson, C.-E. Jonsson and U. Lindblom

523 Autonomic nerve function tests. Reference values in healthy subjects
B. Bergström, B. Lilja, K. Rosberg and G. Sundkvist

529 Validation of a non-invasive method for localization of atherosclerotic occlusive disease in the legs
T. Jonason, B. Bäckbro, I. Ringqvist and J. Trella

539 Mechanisms of insulin resistance in cancer associated malnutrition
K. Bennegård, F. Lundgren and K. Lundholm

549 Impaired autoregulation of cerebral blood flow in long-term Type I (insulin-dependent) diabetic patients with nephropathy and retinopathy
J. Kastrup, S. Rørsgaard, H.-H. Parving and N. A. Lassen

561 Plasma neuropeptide Y-like immunoreactivity and catecholamines during various degrees of sympathetic activation in man
J. Pernow, J. M. Lundberg, L. Kaijser, P. Hjemdahl, E. Theodorsson-Nordheim, A. Martinsson and B. Pernow

579 Determination of ^{99m}Tc-DTPA clearance by a single plasma method
A. B. Christensen and S. Groth

589 Comparison between ventilatory and mouth occlusion pressure responses to hypoxia and hypercapnia in healthy sleeping man
A. Sautegeau, B. Hannart, R. Peslin, M. Bagard and P. Sadoul
